Trading Continues Very Much Restricted and Moderate Reaction Is Had.

Friday Afternoon, Nov. 27 Nothing transpired over the holiday to alter prevailing sentiment as to cut ton values and moderate lossos were sustained today. There is no sign ye of improvement to demand for the actual, and the burden of walting for is still on the man who is holding ray material. The foreign buyers are deing but little, and those representing the domestic mills seem impressed to walt longer, evidently feeling confiden that they can fill their requirement at a lower level. In the meantime the process of trying to adjust condition goes ahead slowly, with the burden of

Sentiment at Opening Bearish and Steel Center of Interest and Under Pressure.

NEW YORK. Nov. 22—Sentiment famong traders was again bearish at the one of the opening of inday's stock market, a developments over the holiday offering little relia from prevailing uncertainties. United States Steel was the central feature, selling, minus its dividents of 2's, per cent, down to 34's, a decline of a large fraction from which it continued to full to 34 Olis, motors, coppers, distilling shares and leather issues yielded I to 3 points, but marines were strong with rails, notably Southern Facific.

Rails increased their gain is the afternoon, transcontinentals showing advances of 2'b, to almost 5 points and grangers, coalers and some of the Eastern issues an average of I point. Coppers and U.S. Rubber also were strong, but shippings and our eased.

Leading rails and industrials mounted to highest leads of the day in the last hour, specialties also making substantial progress. The closing was strong.

Farmers Holding Corn Feature of Market and Prices Display Strength.

CHICAGO, Nov. 29.—Decided strength

developed in the corn market today spreely as a result of signs of a bold-ing policy on the part of farmers. In-limitions of broad relief plans for food shortage in Europe tended further to emphasize bullish sontiment. On the bulge, however, selling increased owing to reports that one of the largest distilleries in the country would close down tonight. Opening prices, which varied from unchanged figures to 3cc off, with December \$1.24\fo 51.24\fo 51.24\fo followed by material upturns all around. Scantiness of receipts led to fresh gains in the last half of the session. Prices closed strong 3 to 3\cdots and lanuary \$1.23\fo to \$1.25 and January \$1.23\fo to \$1.25 and January \$1.25\fo to down provisions.

ROUND THE TICKER

New Criegus, On Nov. 1 American cotton twist was quoted at 54.20d per pound in Lancanire vs. 29.12d on torresponding date inst. year, while American midding was valued at 21.80d against 1.82d, leaving a working margin in favor of the British spinner of 22.91d per pound compared wift \$2.00 one year ago, and only 2.61d in 12.14, when the war started. As a result, English spinners are working on the largest working margin in their history, netting margin in their history, netting enormous dividends, in some instances as much as 100 to 200 per cent for the last squarter. Therefore the evidence is not lacking to prove that there would be an urgent demand for cotton in the South for foreign account if sufficient tennage was available to move cotton in volume to foreign shores.—H. and B. Beer.

New York—Stock ekchange will send out notice today to brokerage houses that loan restrictions, in so far as they affect transactions in bonds and notes, have been removed. A governor of the exchange explained this will emble brokers to deal extensively in securities of this character without violating ruling regarding loan expansion and will permit syndicates to underwrite bond and note issues without restricting their credit allowances.

credit allowances.

Chicago—Sentiment is mixed. Europe is so upset that much skepticism of superfood-exports is expressed. Hoover's guesses of European food needs are challenged. Many say it is easy to see how corn might remain around \$1.15 to \$1.25 for a time, but to advance prices looks a problem. Corn exports seem outsof place and the cut of 25 per cent in Argentine and Australian freight rates suggests that a vast shipping change is coming. Argentina is forced to undersell the United States. Tribune says with only seven months to new United States crops our old surpluses can not be shipped. The average grain man meantime can not see how the United States can export its aurpluses.—E. W. Shauger Clothes
Suits and Overcoats

\$15 and \$17.50

We know you are convinced that most stores cannot show you a good suit or overocat for \$15.00 or \$17.50, but Hauger clothes at these prices are better in fabric, tailoring and style than the high price stores sell for one-third more; because we are satis-

fied with smaller profits, we buy for much less, and have an enormous outlet in our chain of 36 stores.

A little investigation will convince you of Hauger's superior values and the big savings you can make when you

buy Hauger clothes.

Manufactured by

Ingredients-Tankage, Rice, Bran, Peanut Feed (made from whole pressed nuts) and Ground Velvet Beans in pod (kiln dried). Develops bone, muscle and vital organs of the growing pig. Produces cheap gains. Maintains health and vigor. If you market your hogs, the packer wants firm pork. If you do your own killing, you want a deliciously flavored meat.

ARMED GUARDS NOW PROTECTING CITIZENS

HOG FATTENER

KNOXVILLE, Tenn., Nov. 29. (Spl.)—
Armed guards are meeting passengers who get off street cars in Fountain City. Smithwood and other suburbs of Knoxville, after dark. And incidentally there are fewer passengers after sunset, since the mysterious animal came into prominence here.

Rural sections are still terrorized by the strange beast. Rewards have been increased. Besides several hundred doflars in cash prizes, merchants of the city are beginning to offer merchand dise for the apprehension of the "varmint."
